 Unusual Fire and Explosion Hazards: Avoid accumulation and dispersion of dust to reduce explosion potential. Fire may produce irritating gases and dense smoke.

## 5. HUMAN HEALTH DATA

Emergency Overview: Practically nontoxic  
 Primary Route(s) of Exposure: Inhalation, Eye, Skin Contact

Potential Health Effects and Symptoms of Over-Exposure Negligible hazard at room temperature under normal use.

Eye Contact: Solid flake or dust may cause transient irritation as a result of mechanical abrasion.

Skin Contact: Essentially no irritation to skin. Mechanical injury only. Hot solid may cause thermal burns.

Inhalation: Exposure to dust at high concentration may cause irritation to respiratory tract

Ingestion: May cause choking is swallowed.

Medical Conditions

Aggravated by

Overexposure: Not expected Product is generally accepted as being biologically inert. No specific antidotal treatment, symptomatic support required.

Carcinogenicity: NTP: No C: No OSHA: No

## 6. FIRST AID MEASURES

Eye Contact: Immediately flush eyes with water for at least 15 minutes. Do not rub the eyes. If Irritation or other symptoms occur, consult a physician.

Skin Contact: Get medical attention for serious burns. In case of skin contact with hot product, Immediately immerse in or flush with clean, cold water.

Inhalation: Remove to fresh air. Consult physician if irritation of respiratory passage occurs.

Ingestion: Consult physician.

Notes to Physician: No known delayed effects following single exposure.

Other Instructions: None

## 7. EXPOSURE CONTROLS, PERSONAL PROTECTION RECOMMENDATIONS

Eye Protection: Safety glasses

Skin Protection: Gloves required when handling hot material

Respiratory Protection: None required in normal use of product NIOSH approved dust mask recommended if dust conditions exist

Engineering Control: Ventilation Requirements-General

General ventilation should be sufficient. However, if operating conditions create High airborne concentrations of this material, special ventilation may be needed. If handling results in dust generation, special ventilation may be needed to ensure that Dust exposure does not exceed the OSHA PEL for nuisance dust

Required Work/Hygiene

Procedure: Minimize contact with skin. Do not eat, drink or smoke in work area. Wash hands Thoroughly after handling, especially before eating drinking, smoking, chewing or using restroom facility. Dusted clothing and shoes should be thoroughly cleaned Before use.
