

AVM System Material and Labor Warranty Requirements for Aussie Clay 590 (Below Grade)

1. AVM System Material and Labor Warranty eligibility (reference Product Manuals for product applications and installation instructions):
 - Aussie Clay 590 (all varieties) **up to 10 Years**
 - Aussie Skin 550/590 Dual System **up to 15 Years**
2. Project waterproofing details must be installed in accordance with AVM's standard published and/or project specific waterproofing details. Job specific details created by AVM Applicator or designer must be signed off by AVM Representative.
3. Pre-Installation Conference: A pre-installation conference shall be held prior to commencement of field operations to establish procedures to maintain optimum working conditions and to coordinate this work with related and adjacent work. Agenda for meeting shall include review of special details and flashing.
4. Water Compatibility Test: Before installation, an appropriate amount of water or soil from the project site must be submitted to AVM's laboratory to determine compatibility with the Aussie Clay products. Water Compatibility Request Form can be found on the website www.avmindustries.com.
5. Warranty and Issuance:
 - The Certified Date of Substantial Completion is required for warranty issuance.
 - The Approved Applicator must be paid in full.
