

DETAIL #:
0580-AL-6006
System:
Aussie Mate 580-AL

Backfilled Wall Terminations

AVM AUSSIE MATE 580-AL

Notes:

1. Aussie Mate 580-AL is an LARR approved Waterproofing membrane and Methane Barrier.
2. Aussie Mate 580-AL is a UV stable, 60-mil heavy duty bituminous sheet membrane with aluminum protection layer for Below-Grade waterproofing applications. Aussie Mate 580-AL may also be used as a methane and/or vapor barrier under horizontal slabs on grade.
3. See "Aussie Mate 580-AL Installation Instructions" for system requirements.
4. Use termination bar with a tooled bead of Aussie Seal M or seal membrane edge with a 1" X 90 mil tooled bead or Aussie Seal M only.
