

Forevercoat® 100

Maintenance-free Deck Coating

ICC ESR-2125
L.A. RR#: 25430

Sections 071800 / 071813
Fluid Applied Waterproofing

Product Name

Forevercoat® 100
A "Maintenance Free Deck Coating" for
new deck coating installations

Manufactured by

AVM Industries, Inc.
8245 Remmet Ave, Canoga Park, CA 91304
888.414.1041 818.888.0050
www.avmindustries.com

Product Description

The Forevercoat® 100 is a traffic bearing, roof and walk ing deck waterproofing system. The Forevercoat®100 system has a class A roofing classification and a 1 hour fire rating. (When installed per ICC ESR-2125)

Where to Use

On new or existing concrete or plywood decks and many other substrates. (For other substrates, consult with AVM Industries prior to installation) The Forevercoat® 100 system provides exceptional protection against the elements and heavy pedestrian traffic. The Forevercoat® 100 is suitable for both residential and commercial structures and is commonly installed on sundecks, balconies, walkways, stairs, court-yards and many other areas.

Warranty

- The Forevercoat® system components are manufactured to the strictest quality control standards. The manufacturing and quality control procedures are monitored by an independent lab certified to conduct such inspections by ICC ES.
- AVM Industries will warranty the installed system for a period of five (5) years. A ten (10) year warranty is available. For details, consult your distributor or approved AVM Industries applicator. Complete warranty information is available upon request.

Delivery, Storage, and Handling

- Delivery of all the Forevercoat® 100 system materials to the job site must be in their original sealed containers and bags, with manufacturer's name and label intact.
- Handle and store containers and bags in accordance with printed instructions.
- Store at temperatures between 50°F and 90°F. Do not store materials in direct sunlight or where they may be damaged by water or rain. Bags must be kept dry!
- Keep all materials out of the reach of children.

- If irritation occurs during use, liberally flush affected areas with water. If irritation continues, see a physician immediately.

Project Conditions

- Do not apply materials at temperatures below 50°F, or if precipitation is imminent, or above 90°F if applying in direct sun light.
- Provide adequate ventilation during installation.
- Warn personnel against hazards of materials to skin and eyes.
- Protect adjacent surfaces which could be damaged during the application.
- This system must not be used to cover Expansion Joints.

System Application

Install the Forevercoat® 100 in accordance with its Installation Instructions.

Substrates

Plywood must be min 5/8" thick, exterior grade, attached to framing spaced max 16" on center and properly blocked, supported and fastened.

Concrete decks must comply to code and be min 2000 PSI after 28 days curing time.

Preparation of Substrates

The substrate surfaces must be structurally sound, clean, dry, free of contamination, and prepared according to the Installation Instructions.

Installation

Refer to coverage charts and specifications on the other side.

- Over plywood substrates only: This step is required for the 1 hour fire rating and the ICC ES* approval. Install AVM Crete 6400 1/4" thick per the installation instructions.
- Install the Forevercoat® waterproofing membrane as follows:
- Patch all cracks, voids, etc, using AVM Acripatch 5020.

- Apply Primer 100 to all surfaces. Optional: For better bonding, upgrade to the AVM Epoxy Primer 400.

- Laminate the fiberglass mat with AVM Base Resin 100. Optional: Upgrade to AVM Mat 800 (A stronger reinforcing polyester fabric)
- Trowel two thin coats (1/16" thick each) of the AVM Crete 6200 or 6240 to all surfaces.
- Optional. Apply the AVM Top Coat Sealer 4100/4150 to all surfaces.

Quality Control

- Visually inspect all coated surfaces to ensure a full and proper coating application, especially at corners, drainage scuppers and hard-to-reach areas.
- All unsatisfactory areas shall be repaired prior to final acceptance.

Protection of Installed Work

The completed section shall be protected from all pedestrian traffic for the first 24 hours after application and until the surface is sufficiently cured. (The amount of drying time may vary depending on temperature and humidity conditions) Typically, light foot traffic may resume after 4-6 hours.

Clean Up

Tools may be cleaned with water before resins are dry.

Maintenance

Cleaning and washing of the decks should be performed on a regular basis. No re-coatings are required! For cleaning information, refer to the Forevercoat® maintenance instructions.

Availability and Cost

Contact AVM Industries or your approved applicator for pricing and availability.

Technical Services

Technical services are available by contacting our offices at: **888.414.1041** or **818.888.0050** or visit **www.avmindustries.com**

Product Description

AVM Base resin 100 is a high performance water-based acrylic resin used for the waterproofing membrane layer in multiple AVM waterproofing systems including AVM System 100, Elasto Fiberdeck® and Forevercoat®. AVM Base Resin 100 has been thoroughly tested and is a component of the following ICC/LARR approved systems: ICC ESR-2125 and L.A. RR#: 25430.

Where to Use

On new or existing concrete or plywood decks and other substrates. (For other substrates, consult with AVM Industries prior to installation)

Warranty

Refer to each waterproofing system's warranty for details.

Delivery, Storage, and Handling

- Delivery of the Base resin 100 to the job site must be in their original sealed containers, with manufacturer's name and label intact.
- Handle and store containers in accordance with printed instructions.
- Store at temperatures between 50°F and 90°F. Do not store Primer 100 in direct sunlight or where it may be damaged by water or rain.
- Keep Base Resin 100 out of the reach of children.
- If irritation occurs during use, liberally flush affected areas with water. If irritation continues, see a physician immediately.

Project Conditions

- Do not apply Base Resin 100 at temperatures below 50°F, or if precipitation is imminent, or above 90°F if applying in direct sun light.
- Provide adequate ventilation during installation.
- Warn personnel against hazards of Base Resin 100 to skin and eyes.
- Protect adjacent surfaces which could be damaged during the application.

System Application

Install the Base Resin 100 in accordance with each system's Installation Instructions.

Substrates

Refer to each system's installation instructions for more information.

Preparation of Substrates

The substrate surfaces must be structurally sound, clean, dry, free of contamination, and prepared according to each system's Installation Instructions.

Installation

Typically Applied with brushes and rollers. Refer to each system's installation instructions for details.

Quality Control

Refer to each system's installation instructions for details.

Protection of Installed Work

Refer to each system's installation instructions for details.

Clean Up

Tools may be cleaned with water before Primer 100 is dry.

Availability and Cost

Contact AVM Industries or your approved applicator for pricing and availability.

Technical Services

Technical services are available by contacting our offices at: 888.414.1041 or 818.888.0050 or visit www.avmindustries.com

Pigments and Color Packs

Product Name

Color Packs

Manufactured by

AVM Industries, Inc.
8245 Remmet Ave, Canoga Park, CA 91304
888.414.1041 818.888.0050
www.avmindustries.com

Product Description

AVM's Color Packs are concentrated pigment packs sold separately to be added to AVM's Top Coat Sealer 4100 Clear-FP (for Pigment) and to AVM's Texture Clear-FP (for Pigment). These color packs may also be used to tint AVM's Base Coat 100 Clear-FP (for Pigment), AVM's Acripatch 5020 and AVM's Primer 100.

Packaging and Sizes

AVM's color packs come in two sizes. Pints and Quarts. The Pint size Color Packs are to be mixed with AVM's two gallon buckets and the Quart size Color Packs are to be mixed with AVM's five gallon buckets.

Where to Use

AVM's Color Packs are designed to be added to AVM's Top Coat Sealer 4100 Clear-FP (for Pigment) and to AVM's Texture Clear-FP (for pigment). These color packs may also be used to tint AVM's Base Coat 100 Clear-FP (for pigment), AVM's Acripatch 5020 and AVM's Primer 100.

Warranty

AVM's Color Packs are manufactured to the strictest quality control standards. AVM's Color Packs have a one year warranty in their sealed (un-opened) containers and when properly stored in accordance with AVM's published storage instructions.

Delivery, Storage, and Handling

- Delivery of all the Elasto Fiberdeck® 100 system materials to the job site must be in their original sealed containers and bags, with manufacturer's name and label intact.
- Handle and store containers and bags in accordance with printed instructions.
- Store at temperatures between 50°F and 90°F. Do not store materials in direct sunlight or where they may be damaged by water or rain. Bags must be kept dry!
- Keep all materials out of the reach of children.
- If irritation occurs during use, liberally flush affected areas with water. If irritation continues, see a physician immediately.
- Shelf life - One year from date of manufacture.

Project Conditions

- Do not add the pigment pack's contents into materials that are below 50°F, or above 90°F.
- Provide adequate ventilation during mixing.
- Warn personnel against hazards of materials to skin and eyes.
- Protect adjacent surfaces which could be damaged during mixing.

Mixing Instructions

The small (Pint Size) Color Packs are to be used with AVM's 2-gallon buckets.

The large (Quart Size) Color Packs are to be used with AVM's 5-gallon buckets.

- Mix the Top Coat Sealer 4100 Clear-FP for 1 minute with a drill and paddle before adding the pigment.
- Shake the Color Pack by hand for 30-60 seconds before use. (Make sure it's well mixed!)
- Add the contents of the Color Pack to the bucket and mix well for 1-2 additional minutes, until evenly mixed.

Do NOT add water or dilute in any way!

Follow the same Mixing Instructions above if using the Color Packs with Texture Clear-FP and other AVM products.

Installation

Refer to AVM System 100 Elasto Fiberdeck and Forevercoat Installation Instructions for details.

Clean Up

Tools may be cleaned with water before pigments/resins are dry.

Availability and Cost

Contact AVM Industries, your distributor, or your approved applicator for pricing and availability.

Technical Services

Technical services are available by contacting our offices at: **888.414.1041** or **818.888.0050** or visit **www.avmindustries.com**

Product Description

AVM Primer 100 is a high performance water-based acrylic primer used in multiple AVM waterproofing systems including AVM System 100, Elasto Fiberdeck®, Forevercoat®, AVM System 700 and other common applications. AVM primer 100 has been thoroughly tested and is a component of the following ICC/LARR approved systems: ICC ESR-2125, ESR-2662, PMG-2662 and L.A. RR#: 25430.

Where to Use

On new or existing concrete or plywood decks and other substrates. (For other substrates, consult with AVM Industries prior to installation)

Warranty

Refer to each waterproofing system's warranty for details.

Delivery, Storage, and Handling

- Delivery of the Primer 100 to the job site must be in their original sealed containers, with manufacturer's name and label intact.
- Handle and store containers in accordance with printed instructions.
- Store at temperatures between 50°F and 90°F. Do not store Primer 100 in direct sunlight or where it may be damaged by water or rain.
- Keep Primer 100 out of the reach of children.
- If irritation occurs during use, liberally flush affected areas with water. If irritation continues, see a physician immediately.

Project Conditions

- Do not apply Primer 100 at temperatures below 50°F, or if precipitation is imminent, or above 90°F if applying in direct sun light.
- Provide adequate ventilation during installation.
- Warn personnel against hazards of Primer 100 to skin and eyes.
- Protect adjacent surfaces which could be damaged during the application.

System Application

Install the Primer 100 in accordance with each system's Installation Instructions.

Substrates

Plywood must be min 5/8" thick, exterior grade, attached to framing spaced max 16" on center and properly blocked, supported and fastened.

Concrete decks must comply to code and be min 2000 PSI after 28 days curing time.

Refer to each system's installation instructions for more information.

Preparation of Substrates

The substrate surfaces must be structurally sound, clean, dry, free of contamination, and prepared according to each system's Installation Instructions.

Installation

Typically Applied with brushes and rollers. Refer to each system's installation instructions for details.

Quality Control

Refer to each system's installation instructions for details.

Protection of Installed Work

Refer to each system's installation instructions for details.

Clean Up

Tools may be cleaned with water before Primer 100 is dry.

Availability and Cost

Contact AVM Industries or your approved applicator for pricing and availability.

Technical Services

Technical services are available by contacting our offices at: **888.414.1041** or **818.888.0050** or visit **www.avmindustries.com**

www.avmindustries.com

Product Description

AVM Aggregate 200 is the dry mix component (concrete bag) of the AVM Crete 6200. AVM Crete 6200 is a polymer modified concrete mix, exceeding 6000 PSI when cured, designed for thin applications not exceeding 1/4 inch in thickness. AVM Crete 6200 may be used for minor sloping or leveling repairs or as a Bond or Scratch coat (Underlayment) before installing other products or systems. It may also be applied as a decorative Texture, or be used as a Protective Coating for AVM's approved Under Tile Waterproofing Membranes. (AVM System 700/750). AVM Aggregate 200 is available in both white or gray cements.

Where to Use

On new or existing concrete slabs, block walls (CMU) and other porous substrates. Also, as a protective coating over AVM Systems 700/750, Under Tile Waterproofing Membranes. (For applications directly over plywood, use the AVM Crete 6400.)

Submittals

When applicable, submit the manufacturer's printed application instructions.

Warranty

Refer to each system's warranty for details.

Delivery, Storage, and Handling

- Delivery of all the AVM Aggregate 200 concrete bags to the job site must be in their original sealed bags, with manufacturer's name and label intact.
- Handle and store bags in accordance with printed instructions.
- Store at temperatures between 50°F and 90°F. Do not store materials in direct sunlight or where they may be damaged by water or rain. Bags must be kept dry!
- Keep all materials out of the reach of children.
- If irritation occurs during use, liberally flush affected areas with water. If irritation continues, see a physician immediately.

Project Conditions

- Do not apply materials at temperatures below 50°F and falling or if precipitation is imminent. Do not apply materials in direct sunlight at temperatures above 90°F or rising. Do not apply materials anywhere at temperatures above 100°F.
- Warn personnel against hazards of materials to skin and eyes. Note other hazardous conditions on the job that might require special protective gear and or any other special protective or safety procedures.
- Protect adjacent surfaces which could be damaged during the application procedure.
- This system must not be used to cover Expansion Joints.

System Application

Refer to each system's Installation Instructions.

Availability and Cost

Contact AVM Industries or your approved applicator for pricing and availability.

Technical Services

Technical services are available by contacting our offices at: **888.414.1041** or **818.888.0050** or visit www.avmindustries.com

System Specifications

See below.

The following coverages are based on controlled tests. Actual coverages may vary.

Materials	Coverages
One bag of AVM Aggregate 200 mixed with 1.0-1.25 gallons of AVM Additive 7400 makes approx. 4 gallons of mixed product!	
AVM Crete 6200, applied as Slurry	Up to 200 sq. ft./gal. depending on the smoothness of the existing concrete. Total quantity of mixed product will vary based on the amount of Additive being used.
AVM Crete 6200, applied as Texture	40-50 sq. ft./gal. of mixed product
AVM Crete 6200, applied 1/16" Thick	80 sq. ft./gal. of mixed product
AVM Crete 6200, applied 1/8" Thick	40 sq. ft./gal. of mixed product

Coverages may vary based on the smoothness of the existing concrete slabs.

General Data	
Compressive Strength: ASTM C39,C172,C192,C470	7 Days: 4900 PSI. 28 Days: 6000 PSI
Shelf Life:	No specified limit as long as contents have not hardened.
Storage Conditions	Store dry and out of direct sunlight at 50°-90°F.
Color	Gray or White
Mixing Ratio	1.0-1.33 Gallons of AVM Additive 7400 per Bag.
Dry weight of Crete 6200 when installed	1 sq. ft. at 1/4" thick weighs approximately 2.50 pounds

Item / Component	Packaging	Approx Shipping Weights	VOC
Aggregate 200	50 lb. bag	50.0 lbs./bag	N/A

AVM Epoxy Primer 400

Heavy Duty, Hi Adhesion, Water-Based Epoxy Primer

Sections 071800 / 071813
Fluid Applied Waterproofing

Product Name

AVM Epoxy Primer 400

Manufactured by

AVM Industries, Inc.
8245 Remmet Ave, Canoga Park, CA 91304
888.414.1041 818.888.0050
www.avmindustries.com

Product Description

AVM Epoxy Primer 400 is a Hi-Performance Hi-Adhesion Zero VOC Water-Based Epoxy Primer.

Advantages

- Long lasting Adhesion
- Bonds to many different substrates and surfaces
- Easy to Clean
- Can have foot traffic after 20-30 minutes @70°F.
- Interior or Exterior

AVM Primer 400 is environmentally friendly, non toxic, non flammable and has no odor when dry. Furthermore, it helps reduce efflorescence and moisture vapor from leaching through.

Where to Use

Epoxy primer 400 is a multi-purpose water-based Epoxy Primer. AVM Epoxy Primer 400 will bond to most substrates including concrete, wood, metal, cement boards, drywall, old sealers, old tiles, stone etc. Using AVM Epoxy Primer 400 will allow you to apply many coatings to many different substrates when bonding is a challenge or when the ultimate adhesion is required.

Warranty

If sold as part of an AVM system, refer to that system's warranty for details. If sold as a stand-alone primer, AVM's standard 1 year warranty applies. For complete warranty information, go to www.avmindustries.com.

Delivery, Storage, and Handling

- Delivery of the AVM Primer 400 components must be in their original sealed containers, with manufacturer's name and label intact.
- Handle and store containers in accordance with printed instructions.
- Store at temperatures between 50°F and 90°F. Do not store materials in direct sunlight or where they may be damaged by water or rain.
- Keep all materials out of the reach of children.

- If irritation occurs during use, liberally flush affected areas with water. If irritation continues, see a physician immediately.
- Shelf life is one year from manufacturing date in sealed, unopened containers.

Project Conditions

- Do not apply materials at temperatures below 50°F, or if precipitation is imminent, or above 90°F if applying in direct sun light.
- Provide adequate ventilation during installation.
- Warn personnel against hazards of materials to skin and eyes.
- Protect adjacent surfaces which could be damaged during the application.

System Application

Install the Top Coat Sealer 4100 in accordance with its Installation Instructions.

Preparation

Preparation: The substrate surfaces must be structurally sound, clean, dry, and free of efflorescence, dust, dirt, silicone, oil and other contaminants that would prevent the proper penetration and/or bonding of the AVM Primer 400 to the substrate. Joints or cracks should be sealed or filled prior to the application of the AVM Primer 400. AVM Primer 400 may be applied directly over other coatings as long as they are in good condition and properly attached to their substrates. For improved bonding and long lasting adhesion, it is recommended to remove all existing coatings, paints, etc, prior to the application. Depending on existing conditions, additional preparation such as sandblasting or water-blasting might be required, especially when bonding to older cementitious surfaces (Concrete, blocks, slabs, bricks, etc). If you intend to apply the AVM Primer 400 over an existing coating or sealer, make sure it's clean (Pressure washing is highly recommended) and then do a test in a small area to ensure proper bonding. Metal flashings and other sheet metal based surfaces need to be thoroughly cleaned and have all oils, grease etc removed. Lightly sanding these surfaces is highly recommended since it will significantly increase bonding.

Mixing: Mix part A separately for 60 seconds using a drill and clean paddle. Mix part B separately for 60 seconds using a drill and clean paddle. Then combine Part A and Part B into a single container and thoroughly mix for 2 additional minutes using a drill and clean paddle. (Product is supplied in kits, so no pre-measuring is required. Make sure to use the entire contents of both Part A and Part B!) AVM Primer 400 is now ready to be applied. (Do not use the primer if it has thickened considerably or if more than 6-8 hours have passed since Part-A and Part-B were mixed together)

Installation

The AVM Primer 400 can be applied using a sprayer, a brush or roller. When applying with a roller, use a small or medium nap roller cover. Do not over apply material. (Apply a thin coat). If necessary, after the first coat has cured, apply a second coat. Highly porous or difficult to paint substrates, such as split face or Routed blocks, raked joints, etc, may need a second coat to ensure complete and proper coverage and protection. A second application can be made any time after the first coat has sufficiently cured. (Typically 30-60 minutes in 70°F and 50% relative humidity)

Quality Control

- Visually inspect all coated surfaces to ensure a full and proper coating application, especially at corners, drainage scuppers and other hard-to-reach areas.
- All unsatisfactory areas shall be re-coated before proceeding with other coatings.

Protection of Installed Work

For best results the completed sections shall be protected from all pedestrian traffic until the surface is sufficiently cured. (The amount of drying time may vary depending on temperature and humidity conditions) Typically, light foot traffic may resume after 30-60 minutes.

Applying Coatings over the primer

All coatings must be applied over the primer within 8 hours of primer application. If more than 8 hours have gone by since the primer was applied, RE-PRIME!

Clean Up

Tools may be cleaned with water before resins are dry.

Availability and Cost

Contact AVM Industries or your approved applicator for pricing and availability.

Technical Services

Technical services are available by contacting our offices at: **888.414.1041** or **818.888.0050** or visit **www.avmindustries.com**

Coverages: Over concrete or metal approx 300 Sq.Ft. per gallon. Over plywood approx 250 Sq.Ft. per gallon. Coverages may vary based on project conditions, method of application and other factors.

Caution: Wear eye protection. Avoid eye contact or prolonged contact with skin. Wash thoroughly after handling. If eye irritation occurs, liberally flush for 15 minutes & consult a physician immediately.

Shelf Life: One year from date of manufacture in original, sealed, unopened containers.

KEEP OUT OF REACH OF CHILDREN DO NOT TAKE INTERNALLY

Warning: Non Flammable. Avoid breathing vapors or spray mist. Avoid prolonged contact with skin. Will cause injury if ingested. Wash hands thoroughly with warm water and soap after use, especially prior to eating or smoking. Use with adequate ventilation. If any symptoms occur due to the usage or handling of this product, consult a physician immediately.

System Specifications:

The following coverages are based on controlled tests. Actual coverages may vary.

Material	Over Concrete or Metal Surfaces	Over wood, sealed or textured surfaces	Over Porous Surfaces (CMU)

2. HAZARDS IDENTIFICATION

GHS Ratings:

Skin sensitizer

1

Skin sensitizer

GHS Hazards

H317

May cause an allergic skin reaction

GHS Precautions

P261

Avoid breathing dust, mist, or vapours

P272

Contaminated work clothing should not be allowed out of the workplace

P280

Wear protective gloves, protective clothing, eye protection, and face protection

P321

Specific treatment (see first aid instructions on SDS and on this label)

P363

Wash contaminated clothing before reuse

P302+P352

IF ON SKIN: Wash with soap and water

P333+P313

If skin irritation or a rash occurs: Get medical advice/attention

P501

Dispose contents/containers in accordance with local, state and federal regulations.

Signal Word: Warning

3. COMPOSITION/FORMATION ON INGREDIENTS

Chemical Name	CAS number	Weight Concentration %
1,2-Propylene glycol	57-55-6	0.10%

4. FIRST AID MEASURES

IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing is affected. If breathing is difficult, supply oxygen.

IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. If pain, blinking, or irritation develops or persists, get medical attention. Continue rinsing.

IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. If irritation develops or persists, get medical attention.

IF SWALLOWED: Rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention if you feel unwell.

First-aid measures general: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

5. FIREFIGHTING MEASURES

Flash Point: 122 C (252 F)

LEL:

UEL:

Suitable extinguishing media: Carbon dioxide, Alcohol foam, or dry chemical

Heat builds up pressure in closed containers and can rupture or explode.

Carbon Dioxide, Carbon Monoxide, partially burned Carbon, and acrid fumes.

Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment.

Do not enter fire area without proper protective equipment, including respiratory protection

6. ACCIDENTAL RELEASE MEASURES

Stop leak at source when it is safe to do so. Use non-sparking tools only. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Prevent entry to sewers and public waters. Avoid release to the environment. Notify authorities if liquid enters sewers or public waters. This material and its container must be disposed of in a safe way, and as per local legislation.

Absorb the liquid with inert material (such as dry sand or earth) and place it in a chemical waste container. Sweep or shovel spills into appropriate container for disposal.

Persons not wearing protective equipment should be evacuated from area of spill until cleanup has been completed.

Dike and pump the liquid into waste containers.

7. HANDLING AND STORAGE

Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, and open flames. Avoid breathing vapor and mist. Vapors of this material are heavier than air and will collect in low or confined areas. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Store in a cool, well-ventilated place. Store at temperatures between 50°F-90°F unless otherwise stated. Product must remain in its original sealed containers with manufacturer's name and label in tact. Do not store materials in direct sunlight or where they may be damaged by water or rain. Dry goods (When applicable) must be kept dry.

No Additional Data

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
1,2-Propylene glycol 57-55-6	OELs not established	OELs not established	Not Established

Use explosion-proof equipment with flammable materials.

Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Ensure adequate ventilation, especially in confined areas.

Hand protection: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Suitable gloves for this specific application can be recommended by the glove supplier.

Eye protection: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection: Use NIOSH-approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

Changed contaminated clothing immediately. Wash contaminated clothing before reuse.

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general

: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

First-aid measures after inhalation

: IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing is affected. If breathing is difficult, supply oxygen.

AVM Mat 100

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

First-aid measures after skin contact	: IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. If irritation develops or persists, get medical attention.
First-aid measures after eye contact	: IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Continue rinsing if pain, blinking, or irritation develops or persists, get medical attention. Continue rinsing.
First-aid measures after ingestion	: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center. Get medical attention if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects	: May cause cancer.
Symptoms/effects after inhalation	: May cause respiratory irritation.
Symptoms/effects after skin contact	: May cause skin irritation.
Symptoms/effects after eye contact	: Direct contact with eyes is likely to be irritating.
Symptoms/effects after ingestion	: May cause gastrointestinal irritation.
Chronic symptoms	: May cause cancer.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media	: Water spray.
------------------------------	----------------

5.2. Special hazards arising from the substance or mixture

Fire hazard	: Not flammable.
Reactivity	: No dangerous reactions known under normal conditions of use.

5.3. Advice for firefighters

Precautionary measures fire	: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Protection during firefighting	: Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures	: Evacuate area. Ventilate area. Keep upwind. Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8).
------------------	---

6.1.1. For non-emergency personnel

Protective equipment	: Wear Protective equipment as described in Section 8.
Emergency procedures	: Evacuate unnecessary personnel.

6.1.2. For emergency responders

Protective equipment	: Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency.
----------------------	---

6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

For containment	: Contain and collect as any solid. Avoid dust formation.
Methods for cleaning up	: Dampen with water and sweep up. Dispose of material in compliance with local, state, and federal regulations.

6.4. Reference to other sections

See Sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling	: Handle in accordance with good industrial hygiene and safety procedures. Use only in well-ventilated areas. Avoid dust formation. Do not breathe dust. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.
-------------------------------	--

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions	: Store in dry, well-ventilated area.
--------------------	---------------------------------------

AVM Mat 100

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Fiberglass Mat

NIOSH TWA

3 fibers/cm³ (fibers with diameter ≤ 3.5 µm & length ≥ 10 µm);
5 mg/m³ (total fibrous glass)

8.2. Exposure controls

Appropriate engineering controls

: Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

Personal protective equipment

: Gloves. Protective goggles. Insufficient ventilation: wear respiratory protection.

Hand protection

: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Suitable gloves for this specific application can be recommended by the glove supplier.

Eye protection

: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection

: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection

: Use NIOSH (or other equivalent national standard) -approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	: Solid
Color	: Various.
Odor	: No data available
Odor Threshold	: No data available
pH	: No data available
Relative evaporation rate (butylacetate=1)	: No data available
Melting point	: 265 °C (509 °F)
Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapour pressure	: No data available
Relative vapour density at 20 °C	: No data available
Relative density	: 1.34 - 1.39
Solubility	: No data available
Log Pow	: No data available
Log Kow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosive properties	: No data available
Oxidising properties	: No data available
Explosive limits	: No data available

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

No dangerous reactions known under normal conditions of use.

AVM Mat 100

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

10.2. Chemical stability

Stable under recommended handling and storage conditions (see section 7).

10.3. Possibility of hazardous reactions

None known.

10.4. Conditions to avoid

None known.

10.5. Incompatible materials

None known.

10.6. Hazardous decomposition products

Sizing or binders may decompose in a fire. Carbon oxides (CO, CO₂). Water.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity	: Not classified
Skin corrosion/irritation	: Not classified
Serious eye damage/irritation	: Not classified
Respiratory or skin sensitisation	: Not classified
Germ cell mutagenicity	: Not classified
Carcinogenicity	: May cause cancer.
Reproductive toxicity	: Not classified
Specific target organ toxicity (single exposure)	: Not classified
Specific target organ toxicity (repeated exposure)	: Not classified
Aspiration hazard	: Not classified
Symptoms/effects after inhalation	: May cause respiratory irritation.
Symptoms/effects after skin contact	: May cause skin irritation.
Symptoms/effects after eye contact	: Direct contact with eyes is likely to be irritating.
Symptoms/effects after ingestion	: May cause gastrointestinal irritation.
Chronic symptoms	: May cause cancer.

SECTION 12: Ecological information

12.1. Toxicity

Ecology - general : Being an amorphous product, no environmental risk.

12.2. Persistence and degradability

No additional information available

12.3. Bioaccumulative potential

No additional information available

12.4. Mobility in soil

No additional information available

12.5. Other adverse effects

No additional information available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste treatment methods	: Mechanical decomposition (non soluble material).
Waste disposal recommendations	: Dispose in a safe manner in accordance with local/national regulations.

SECTION 14: Transport information

In accordance with DOT

Not hazardous for transport

Additional information

Other information : No supplementary information available.

Transport by sea

No additional information available

Air transport

No additional information available

AVM Mat 100

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 15: Regulatory information

15.1. US Federal regulations

AVM Mat 100

All chemical substances in this product are listed in the EPA (Environment Protection Agency) TSCA (Toxic Substances Control Act) Inventory or are exempt

SARA Section 311/312 Hazard Classes

Delayed (chronic) health hazard

15.2. International regulations

No additional information available.

15.3. US State regulations

This product does not contain any substances known to the state of California to cause cancer and/or reproductive harm

SECTION 16: Other information

Indication of changes : Revision 1.0: New SDS Created.

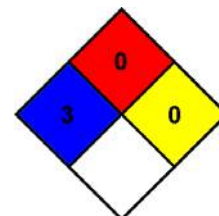

Revision date : 05/02/2017

Other information : Author: BCS.

NFPA health hazard : 3 - Materials that, under emergency conditions, can cause serious or permanent injury.

NFPA fire hazard : 0 - Materials that will not burn under typical fire conditions, including intrinsically noncombustible materials such as concrete, stone, and sand.

NFPA reactivity : 0 - Material that in themselves are normally stable, even under fire conditions.

Hazard Rating

Health : 3*

Flammability : 0

Physical : 0

Personal protection :

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product

Safety Data Sheet

AVM Industries Inc.

Version 1.1 Revision Date 8-5-15

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Primer 100 Product Code: 100 Primer

AVM Industries, Inc.

8245 Remmet Ave, Canoga Park CA 91304-4133

Tel: (818) 888-0050

www.avmindustries.com

Emergency Contact:

AVM Industries, Inc.

Tel: (818) 888-0050

2. HAZARDS IDENTIFICATION

GHS Ratings:

GHS Hazards

GHS Precautions

Signal Word:

There are no GHS ratings that apply to this product at this time.

3. COMPOSITION/IFORMATION ON INGREDIENTS

Chemical Name	CAS number	Weight Concentration %

4. FIRST AID MEASURES

IF INHALED: Remove to fresh air and keep at rest in a comfortable position for breathing.

IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Continue rinsing.

IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes .

IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention if you feel unwell.

First-aid measures general: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

5. FIREFIGHTING MEASURES

Flash Point: 122 C (252 F)

LEL:

UEL:

Suitable extinguishing media: Carbon dioxide, Alcohol foam, or dry chemical

Heat builds up pressure in closed containers and can rupture or explode.

Carbon Dioxide, Carbon Monoxide, partially burned Carbon, and acrid fumes.

Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment.

Do not enter fire area without proper protective equipment, including respiratory protection

6. ACCIDENTAL RELEASE MEASURES

Stop leak at source when it is safe to do so. Use non-sparking tools only. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Prevent entry to sewers and public waters. Avoid release to the environment. Notify authorities if liquid enters sewers or public waters. This material and its container must be disposed of in a safe way, and as per local legislation.

Absorb the liquid with inert material (such as dry sand or earth) and place it in a chemical waste container. Sweep or shovel spills into appropriate container for disposal.

Persons not wearing protective equipment should be evacuated from area of spill until cleanup has been completed.

Dike and pump the liquid into waste containers.

7. HANDLING AND STORAGE

Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, and open flames. Avoid breathing vapor and mist. Vapors of this material are heavier than air and will collect in low or confined areas. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Store in a cool, well-ventilated place. Store at temperatures between 50°F-90°F unless otherwise stated. Product must remain in its original sealed containers with manufacturer's name and label in tact. Do not store materials in direct sunlight or where they may be damaged by water or rain. Dry goods (When applicable) must be kept dry.

No Additional Data

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
	Not Established	Not Established	Not Established

Use explosion-proof equipment with flammable materials.

Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Ensure adequate ventilation, especially in confined areas.

Hand protection: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Suitable gloves for this specific application can be recommended by the glove supplier.

Eye protection: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection: Use NIOSH-approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

Change contaminated clothing immediately. Wash contaminated clothing before reuse.

2. HAZARDS IDENTIFICATION

GHS Ratings:

Skin corrosive	2	Reversible adverse effects in dermal tissue, Draize score: $\geq 2.3 < 4.0$ or persistent inflammation
Eye corrosive	1	Serious eye damage: Irreversible damage 21 days after exposure, Draize score: Corneal opacity ≥ 3 , Iritis > 1.5
Carcinogen	1A	Known Human Carcinogen Based on human evidence
Organ toxin single exposure	3	Transient target organ effects- Narcotic effects- Respiratory tract irritation
Organ toxin repeated exposure	1	Significant toxicity in humans- Reliable, good quality human case studies or epidemiological studies Presumed significant toxicity in humans- Animal studies with significant and/or severe toxic effects relevant to humans at generally low exposure (guidanc

GHS Hazards

H315	Causes skin irritation
H318	Causes serious eye damage
H335	May cause respiratory irritation
H350	May cause cancer
H372	Causes damage to organs through prolonged or repeated exposure

GHS Precautions

P201	Obtain special instructions before use
P202	Do not handle until all safety precautions have been read and understood
P260	Do not breathe dust, mist or vapours
P261	Avoid breathing dust, mist, or vapours
P264	Wash hands, forearms and face thoroughly after handling
P270	Do not eat, drink or smoke when using this product

P271	Use only outdoors or in a well-ventilated area
P280	Wear protective gloves, protective clothing, eye protection, and face protection
P281	Use personal protective equipment as required
P310	Immediately call a POISON CENTER or doctor/physician
P312	Call a POISON CENTER or doctor/physician if you feel unwell
P314	Get Medical advice/attention if you feel unwell
P321	Specific treatment (see first aid instructions on SDS and on this label)
P362	Take off contaminated clothing and wash before reuse
P302+P352	IF ON SKIN: Wash with soap and water
P304+P340	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305+P351+P338	IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing
P308+P313	IF exposed or concerned: Get medical advice/attention
P332+P313	If skin irritation occurs: Get medical advice/attention
P405	Store locked up
P403+P233	Store in a well ventilated place. Keep container tightly closed
P501	Dispose contents/containers in accordance with local, state and federal regulations.

Signal Word: Danger

Signal Word: Warning

3. COMPOSITION/FORMATION ON INGREDIENTS

Chemical Name	CAS number	Weight Concentration %
Oxirane, 2,2'-[(1-methylethylidene)bis(4,1-phenyleneoxymethylene)]bis-, homopolymer	25085-99-8	26.00%

4. FIRST AID MEASURES

IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing is affected. If breathing is difficult, supply oxygen.

IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. If pain, blinking, or irritation develops or persists, get medical attention. Continue rinsing.

IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. If irritation develops or persists, get medical attention.

IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention if you feel unwell.

First-aid measures general: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

5. FIREFIGHTING MEASURES

Flash Point: 249 C (480 F)

LEL:

UEL:

Suitable extinguishing media: Carbon dioxide, Alcohol foam, or dry chemical

Heat builds up pressure in closed containers and can rupture or explode.

Carbon Dioxide, Carbon Monoxide, partially burned Carbon, and acrid fumes.

Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment.

Do not enter fire area without proper protective equipment, including respiratory protection

6. ACCIDENTAL RELEASE MEASURES

Stop leak at source when it is safe to do so. Use non-sparking tools only. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Prevent entry to sewers and public waters. Avoid release to the environment. Notify authorities if liquid enters sewers or public waters. This material and its container must be disposed of in a safe way, and as per local legislation.

Absorb the liquid with inert material (such as dry sand or earth) and place it in a chemical waste container. Sweep or shovel spills into appropriate container for disposal.

Persons not wearing protective equipment should be evacuated from area of spill until cleanup has been completed.

Dike and pump the liquid into waste containers.

7. HANDLING AND STORAGE

Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, and open flames. Avoid breathing vapor and mist. Vapors of this material are heavier than air and will collect in low or confined areas. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Store in a cool, well-ventilated place. Store at temperatures between 50°F-90°F unless otherwise stated. Product must remain in its original sealed containers with manufacturer's name and label in tact. Do not store materials in direct sunlight or where they may be damaged by water or rain. Dry goods (When applicable) must be kept dry.

No Additional Data

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
Oxirane, 2,2'-[(1-methylethylidene)bis(4,1-phenyleneoxymethylene)] bis-, homopolymer 25085-99-8	OELs not established	OELs not established	Not Established

Use explosion-proof equipment with flammable materials.

Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Ensure adequate ventilation, especially in confined areas.

Hand protection: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Suitable gloves for this specific application can be recommended by the glove supplier.

Eye protection: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection: Use NIOSH-approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

Changed contaminated clothing immediately. Wash contaminated clothing before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Liquid	Odor: Slight
Vapor Pressure: 19.3 mmHG at 70F	Odor threshold: Not Available
Vapor Density: -99999.0	pH: Not Available
Density: 1.05	Melting point: Not Available
Freezing point: Not Available	Solubility: Not Available
Boiling range: 100°C	Flash point: 480 F, 248 C
Evaporation rate: Not Available	Flammability: Not Available
Explosive Limits: Not Available	Partition coefficient (n-octanol/water): Not Available
Autoignition temperature: Not Available	Decomposition temperature: Not Available
Viscosity: Not Available	Grams VOC/liter less water: 0.23

16. OTHER INFORMATION

This information is provided in good faith and is correct to the best of AVM Industries' knowledge as of the date hereof and is designed to assist our customers; however, AVM makes no representation as to its completeness or accuracy. This product is intended for sale to mainly professional contractor. We require customers to satisfy themselves as to the suitability for their specific applications. Any use which AVM Industries customers or third parties make of this information, or any reliance on, or decisions made based upon it, are the responsibility of such customer or third party. AVM Industries disclaims responsibility for damages, or liability of any kind resulting from the use of this information. THERE ARE NO WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED, INCLUDING THOSE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO THIS INFORMATION OR TO THE PRODUCT IT DESCRIBES. IN NO EVENT SHALL AVM INDUSTRIES BE

LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES.

Reviewer Revision

Date Prepared: 9/22/2015

Safety Data Sheet

AVM Industries Inc.

Version 1.1 Revision Date 8-5-15

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Primer 400 Part B Product Code: 400 Primer Part B

AVM Industries, Inc.

8245 Remmet Ave, Canoga Park CA 91304-4133

Tel: (818) 888-0050

www.avmindustries.com

Emergency Contact:

AVM Industries, Inc.

Tel: (818) 888-0050

2. HAZARDS IDENTIFICATION

GHS Ratings:

Skin corrosive	2	Reversible adverse effects in dermal tissue, Draize score: $\geq 2.3 < 4.0$ or persistent inflammation
Eye corrosive	1	Serious eye damage: Irreversible damage 21 days after exposure, Draize score: Corneal opacity ≥ 3 , Iritis > 1.5
Skin sensitizer	1	Skin sensitizer

GHS Hazards

H315	Causes skin irritation
H317	May cause an allergic skin reaction
H318	Causes serious eye damage

GHS Precautions

P261	Avoid breathing dust, mist, or vapours
P264	Wash hands, forearms and face thoroughly after handling
P272	Contaminated work clothing should not be allowed out of the workplace
P280	Wear protective gloves, protective clothing, eye protection, and face protection
P310	Immediately call a POISON CENTER or doctor/physician
P321	Specific treatment (see first aid instructions on SDS and on this label)
P362	Take off contaminated clothing and wash before reuse
P363	Wash contaminated clothing before reuse
P302+P352	IF ON SKIN: Wash with soap and water
P305+P351+P338	IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing
P332+P313	If skin irritation occurs: Get medical advice/attention
P333+P313	If skin irritation or a rash occurs: Get medical advice/attention
P501	Dispose contents/containers in accordance with local, state and federal regulations.

Signal Word: Danger

3. COMPOSITION/IFORMATION ON INGREDIENTS

Chemical Name	CAS number	Weight Concentration %
Polyamine Polymer	Polyamine Polymer	19.00%
Propylene glycol diamine, 2-amino-, diether with Propylene	9046-10-0	2.00%
Tetraethylenepentamine	112-57-2	1.00% - 5.00%

4. FIRST AID MEASURES

IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing is affected. If breathing is difficult, supply oxygen.

IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Get medical attention immediately. Continue rinsing.

IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes . If irritation develops or persists, get medical attention.

IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention if you feel unwell.

First-aid measures general: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

5. FIREFIGHTING MEASURES

Flash Point: 100 C (212 F)

LEL:

UEL:

Suitable extinguishing media: Carbon dioxide, Alcohol foam, or dry chemical

Heat builds up pressure in closed containers and can rupture or explode.

Carbon Dioxide, Carbon Monoxide, partially burned Carbon, and acrid fumes.

Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment.

Do not entire fire area without proper protective equipment, including respiratory protection

6. ACCIDENTAL RELEASE MEASURES

Stop leak at source when it is safe to do so. Use non-sparking tools only. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Prevent entry to sewers and public waters. Avoid release to the environment. Notify authorities if liquid enters sewers or public waters. This material and its container must be disposed of in a safe way, and as per local legislation .

Absorb the liquid with inert material (such as dry sand or earth) and place it in a chemical waste container. Sweep or shovel spills into appropriate container for disposal.

Persons not wearing protective equipment should be evacuated from area of spill until cleanup has been completed.

Dike and pump the liquid into waste containers.

7. HANDLING AND STORAGE

Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, and open flames. Avoid breathing vapor and mist. Vapors of this material are heavier than air and will collect in low or confined areas. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Store in a cool, well-ventilated place. Store at temperatures between 50°F-90°F unless otherwise stated. Product must remain in its original sealed containers with manufacturer's name and label in tact. Do not store materials in direct sunlight or where they may be damaged by water or rain. Dry goods (When applicable) must be kept dry.

No Additional Data

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
Polyamine Polymer Polyamine Polymer	Not Established	Not Established	Not Established
Propylene glycol diamine, 2-amino-, diether with Propylene 9046-10-0	OELs not established	OELs not established	Not Established
Tetraethylenepentamine 112-57-2	OELs not established	OELs not established	Not Established

Use explosion-proof equipment with flammable materials.

Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Ensure adequate ventilation, especially in confined areas.

Hand protection: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl. Suitable gloves for this specific application can be recommended by the glove supplier.

Eye protection: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection: Use NIOSH-approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

Changed contaminated clothing immediately. Wash contaminated clothing before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

Reviewer Revision

Date Prepared: 9/22/2015

AVM Mat 800

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Revision date: 05/01/2017

Supersedes:

Version: 1.0

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name : AVM Mat 800

Product form : Mixtures

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture : Polyester stitchbonded fabric

1.3. Details of the supplier of the safety data sheet

AVM Industries, Inc.
8245 Remmet Ave
Canoga Park, CA 91304
Tel: 818-888-0050
Fax: 818-888-0030
www.avmindustries.com

1.4. Emergency telephone number

No additional information available

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

GHS-US classification

Not classified

2.2. Label elements

GHS-US labelling

No labelling applicable

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity (GHS US)

No data available

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Name	Product identifier	%
Contains no hazardous ingredients at levels requiring disclosure by the OSHA Hazard Communication Standard (29 CFR 1910.1200)		

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general	: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.
First-aid measures after inhalation	: IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing is affected. If breathing is difficult, supply oxygen.
First-aid measures after skin contact	: IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. If irritation develops or persists, get medical attention.
First-aid measures after eye contact	: IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Continue rinsing if pain, blinking, or irritation develops or persists, get medical attention. Continue rinsing.
First-aid measures after ingestion	: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center. Get medical attention if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects	: Not expected to present a significant hazard under anticipated conditions of normal use.
Symptoms/effects after inhalation	: May cause respiratory irritation.
Symptoms/effects after skin contact	: May cause skin irritation.
Symptoms/effects after eye contact	: Direct contact with eyes is likely to be irritating.
Symptoms/effects after ingestion	: May cause gastrointestinal irritation.

AVM Mat 800

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media : Water spray. Water fog. carbon dioxide (CO₂). Dry chemical. Foam.

5.2. Special hazards arising from the substance or mixture

Fire hazard : Molten polyester can cause severe burns to the skin.

Explosion hazard : Product is not explosive.

Reactivity : No dangerous reactions known under normal conditions of use.

5.3. Advice for firefighters

Precautionary measures fire : Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Protection during firefighting : Evacuate unnecessary personnel. Do not enter fire area without proper protective equipment, including respiratory protection.

Other information : Avoid breathing smoke, fumes, decomposition products.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures : Evacuate area. Ventilate area. Keep upwind. Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8).

6.1.1. For non-emergency personnel

Protective equipment : Wear Protective equipment as described in Section 8.

Emergency procedures : Evacuate unnecessary personnel.

6.1.2. For emergency responders

Protective equipment : Wear suitable protective clothing, gloves and eye or face protection. Approved supplied-air respirator, in case of emergency.

6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

For containment : Contain and collect as any solid.

Methods for cleaning up : Dispose of material in compliance with local, state, and federal regulations.

6.4. Reference to other sections

See Sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling : Handle in accordance with good industrial hygiene and safety procedures. Use only in well-ventilated areas. Avoid dust formation. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Store in dry, well-ventilated area. Keep away from ignition sources.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

No data available

8.2. Exposure controls

Appropriate engineering controls : Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

Personal protective equipment : Gloves. Protective goggles.

Hand protection : Use gloves chemically resistant to this material when prolonged or repeated contact could occur.

AVM Mat 800

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Eye protection	: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.
Skin and body protection	: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.
Respiratory protection	: Use NIOSH (or other equivalent national standard) -approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory protective equipment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	: Solid
Color	: Various.
Odor	: No data available
Odor Threshold	: No data available
pH	: No data available
Relative evaporation rate (butylacetate=1)	: No data available
Melting point	: 265 °C (509 °F)
Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapour pressure	: No data available
Relative vapour density at 20 °C	: No data available
Relative density	: 1.34 - 1.39
Solubility	: No data available
Log Pow	: No data available
Log Kow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosive properties	: No data available
Oxidising properties	: No data available
Explosive limits	: No data available

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

No dangerous reactions known under normal conditions of use.

10.2. Chemical stability

Stable under recommended handling and storage conditions (see section 7).

10.3. Possibility of hazardous reactions

None known.

10.4. Conditions to avoid

None known.

10.5. Incompatible materials

None known.

10.6. Hazardous decomposition products

Carbon oxides (CO, CO₂). hydrogen. Oxygen. Nitrogen. Carbon.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity	: Not classified
Skin corrosion/irritation	: Not classified
Serious eye damage/irritation	: Not classified
Respiratory or skin sensitisation	: Not classified

AVM Mat 800

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Germ cell mutagenicity	: Not classified
Carcinogenicity	: Not classified
Reproductive toxicity	: Not classified
Specific target organ toxicity (single exposure)	: Not classified
Specific target organ toxicity (repeated exposure)	: Not classified
Aspiration hazard	: Not classified
Symptoms/effects after inhalation	: May cause respiratory irritation.
Symptoms/effects after skin contact	: May cause skin irritation.
Symptoms/effects after eye contact	: Direct contact with eyes is likely to be irritating.
Symptoms/effects after ingestion	: May cause gastrointestinal irritation.

SECTION 12: Ecological information

12.1. Toxicity

No additional information available

12.2. Persistence and degradability

No additional information available

12.3. Bioaccumulative potential

No additional information available

12.4. Mobility in soil

No additional information available

12.5. Other adverse effects

No additional information available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste disposal recommendations : Dispose in a safe manner in accordance with local/national regulations.

SECTION 14: Transport information

In accordance with DOT

Not hazardous for transport

Additional information

Other information : No supplementary information available.

Transport by sea

No additional information available

Air transport

No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

AVM Mat 800

All chemical substances in this product are listed in the EPA (Environment Protection Agency) TSCA (Toxic Substances Control Act) Inventory or are exempt

SARA Section 311/312 Hazard Classes	None
-------------------------------------	------

15.2. International regulations

No additional information available.

15.3. US State regulations

This product does not contain any substances known to the state of California to cause cancer and/or reproductive harm

SECTION 16: Other information

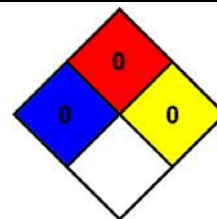

Indication of changes	: Revision 1.0: New SDS Created.
Revision date	: 05/01/2017
Other information	: Author: BCS.

AVM Mat 800

Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

NFPA health hazard	: 0 - Materials that, under emergency conditions, would offer no hazard beyond that of ordinary combustible materials.
NFPA fire hazard	: 0 - Materials that will not burn under typical fire conditions, including intrinsically noncombustible materials such as concrete, stone, and sand.
NFPA reactivity	: 0 - Material that in themselves are normally stable, even under fire conditions.

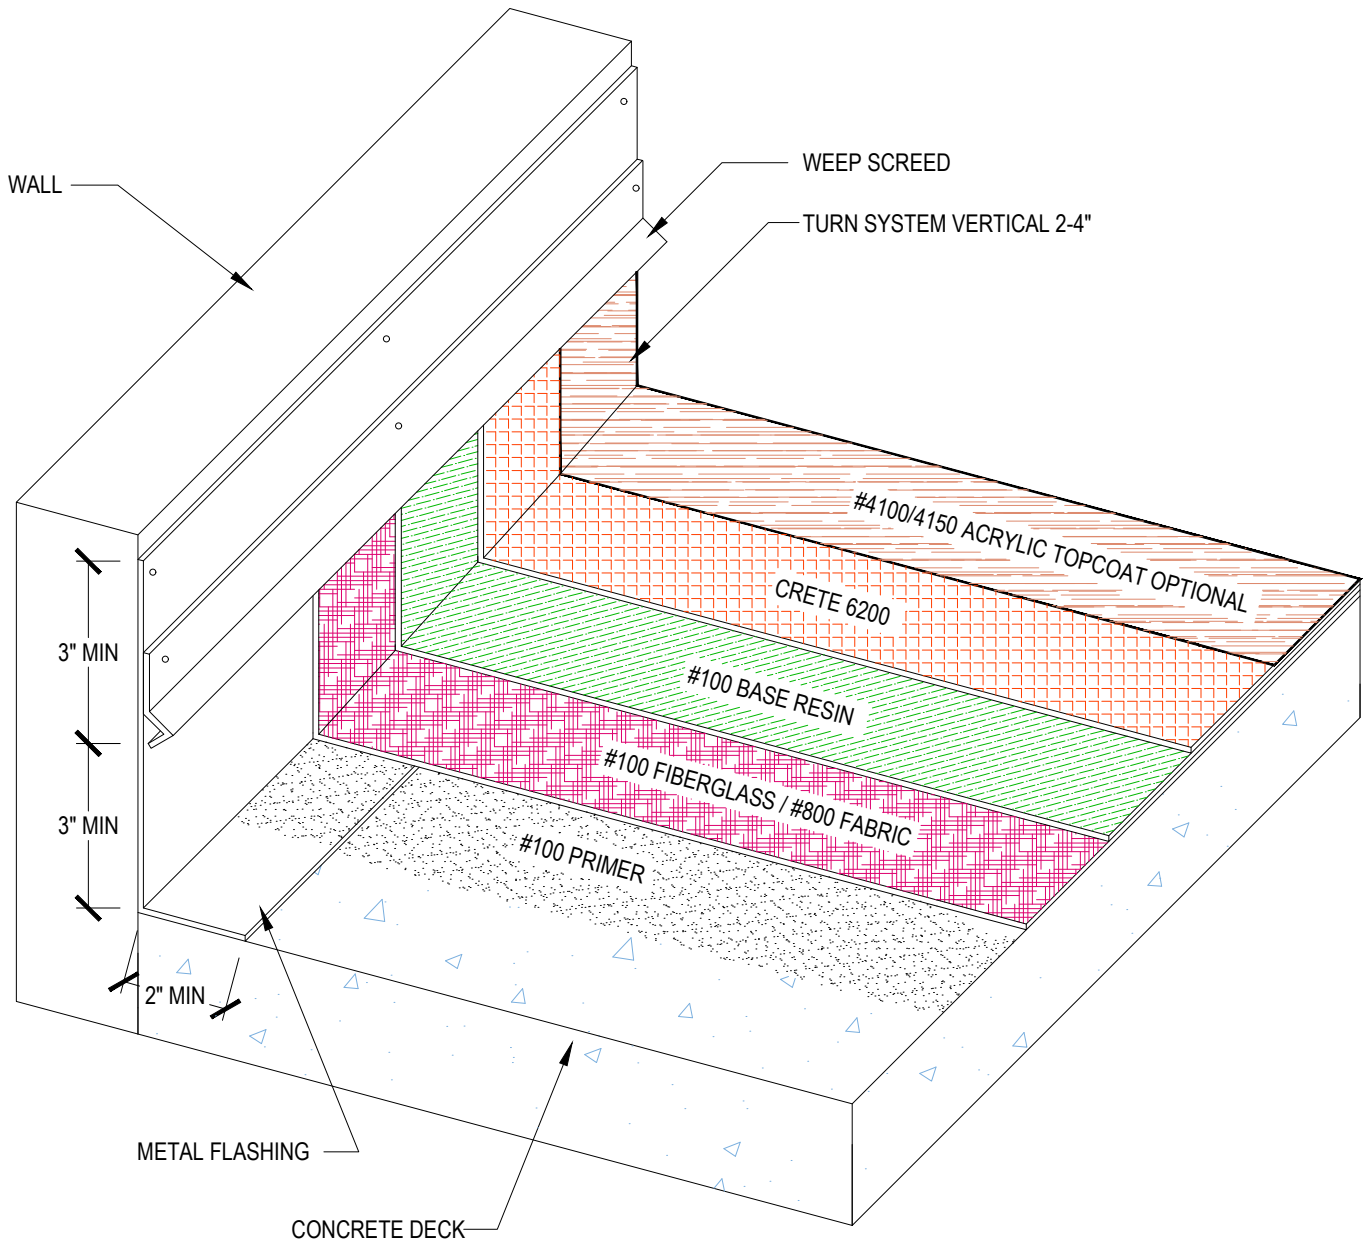

Hazard Rating

Health	: 0
Flammability	: 0
Physical	: 0
Personal protection	:

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product

DETAIL #:
0100-FEC-001-C-ISO
AVM System 100
Forevercoat

Standard Assembly Over Concrete Substrate AVM System 100 Forevercoat

Notes:

1. Concrete substrate to be minimum 2" thick at 2,000 psi.
2. Metal flashing to be minimum 2" 26 gauge (3-4" on to deck preferred) min 6" on vertical.
3. #100 Fiberglass or #800 Fabric may be used for resin coat.
4. See application instructions for full system recommendations and requirements.

Drain Assembly Over Plywood Substrate AVM System 100 Forevercoat

#100 PRIMER
#100/#800 REINFORCING MAT
#100 BASE COAT RESIN
CRETE 6200
#4100/4150 ACRYLIC TOPCOAT
(OPTIONAL)

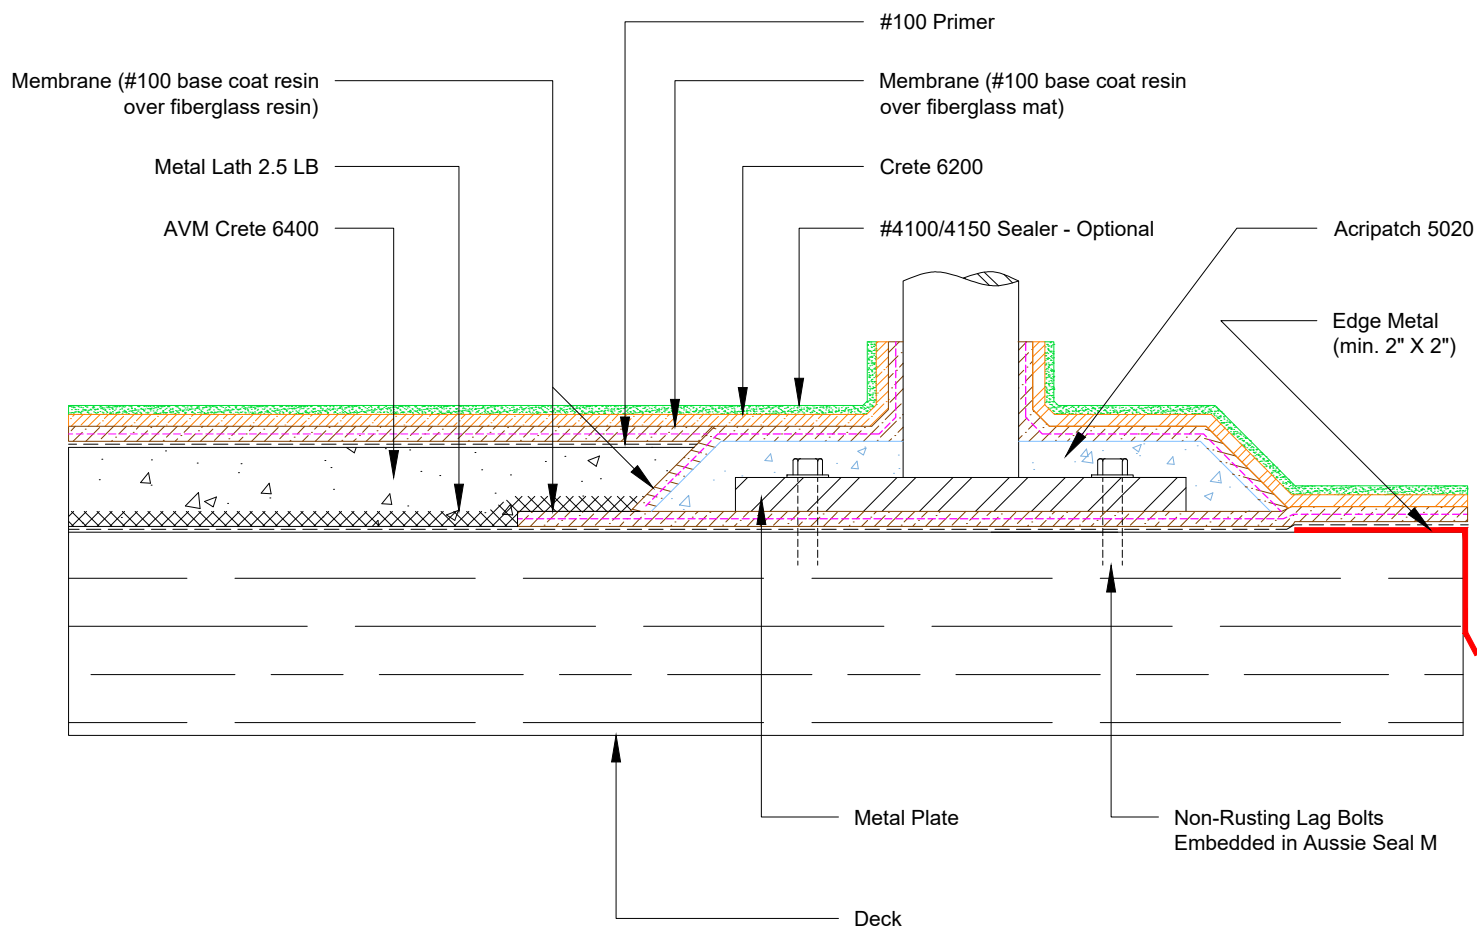

FOREVERCOAT ASSEMBLY

Notes:

1. Stop AVM Crete 6400 at least 2" before drain opening leaving a minimum of 2" exposed flange.
2. Install Acripatch 5020 to transition from Crete 6400 to flange leaving a minimum 1" of flange exposed for direct membrane bonding.
3. Ensure drain sits low enough and that there is sufficient slope to properly drain the water.
4. Drain Flange - Remove all paints, primers, oils or foreign material by abrading / sanding to bare steel prior to full system application.
5. Base resin and reinforcement may be installed into properly prepared drain body.
6. Do not block weep holes.
7. See application instructions for full system recommendations and requirements.

Railing Support with Mounting Plate AVM System 100 Forevercoat

Notes:

1. If there is enough room between outer edge of metal plate and edge metal to install Crete 6400, it must be installed.
2. Face mount railing is the optimal installation for railing systems.

Additional Important Information

AVM Industries' Top Coat Sealers are also available in Clear (#000) and Bright White (#001). Custom colors and color matching are available at extra charge. For custom colors, minimum orders may apply.

Decorative Concrete Finishes

AVM Industries makes several Concrete-based decorative systems. (See Other AVM Product, below) The colors on this chart may be used when selecting a Concrete color. For these systems, we can either pre tint the liquid additives that are used with the Concrete or provide separate color packs to be added later. Since batches of premixed Concrete vary and pigments have some variations of their own, it is highly recommended you do a test batch with the system's materials and review their colors after 7 days of curing time to view the colors more accurately. (See "Note" on front side)

Other AVM Products

AVM System 100 – Elasto Fiberdeck is an ICC and L.A. RR approved traffic bearing waterproofing roof or deck-coating system. The system is designed to waterproof balconies, stairs, walkways, sun decks, patios, courtyards, and other traffic bearing surfaces. The Elasto Fiberdeck 100 system is a Class-A roofing system with a One-Hour Fire Rating over plywood.

AVM System 200 – is a Decorative Concrete system. It's a decorative traffic bearing deck coating system suitable for concrete substrates where waterproofing is not required. AVM System 200 comes in both gray and white cement and can be applied in many different finishes, colors and stains. It beautifies and adds a non-skid surface to new and existing concrete slabs. Typical areas include pool decks, balconies, stairs, walkways, patios, courtyards, and other traffic bearing surfaces.

AVM Stamp Crete 300 – is a decorative stamped concrete overlay for resurfacing new and old concrete surfaces. AVM Stamp Crete 300 is available in many different designs, patterns and colors. It is suitable for both residential and commercial structures and is commonly installed in drive-ways, courtyards, walkways and other common traffic areas. AVM Stamp Crete 300 may be installed with AVM System 700 (Under-Tile Waterproofing Membrane) when waterproofing or crack suppression are desired.

AVM Systems 500/502 – Aussie Membrane/Aussie II are liquid applied black bitumen rubber membranes designed to waterproof retaining walls, planters, between-slabs and other similar types of applications. AVM Systems 500/502 have ICC and L.A. RR approvals.

AVM System 700 – Under Tile Waterproofing and Anti Fracture Membrane is an ICC and L.A. RR approved tile waterproofing system. It is designed to waterproof surfaces which will have tile, brick, slate, pavers or other similar finished surfaces installed directly over the substrate. AVM 700 may also be used to waterproof shower pans, counter-tops, or other areas in continuously wet environments. AVM System 700 exceeds ANSI A118.10 Specifications.

AVM System 750 – Under Tile Waterproofing and Anti Fracture Membrane is an IAPMO approved tile waterproofing system. It is designed to waterproof surfaces which will have tile, brick, slate, pavers or other similar finished surfaces installed directly over the substrate. AVM system 750 is ideally suited to waterproof shower pans, ponds, fountains, kitchens, bathrooms, counter-tops, or other areas in continuously wet environments. AVM System 750 exceeds ANSI A118.10 Specifications.

AVM Crete 6200 – is a polymer fortified concrete mix designed to be used for thin sloping, leveling, slurry and preparation applications ranging in thickness from 0"-1/4" thick. AVM Crete 6200 reaches 6200 PSI after 28 days.

AVM Crete 6400 – is a polymer fortified concrete mix designed to be used for sloping and leveling applications ranging from 1/8"-4" thick. AVM Crete 6400 reaches 3700 PSI after 28 days.
